

WORLD GARDENING

“WATER FOR SUDAN” is the FGCNYS, INC. project for 2016

Everyday, hundreds of thousands of people in Sudan are forced to drink unsanitary water that they have to walk hours to obtain. This water is contaminated with parasites and Cholera. The organization, WATER FOR SUDAN, is providing well drilling equipment and expertise so that clean water can be brought to communities where markets, schools, churches and clinics can spring them up. The death rate will go down and education can take place.

Please help us with this worthwhile endeavor by supporting WORLD GARDENING.

Contributions should be made by check payable to:
Federated Garden Clubs of New York State, Inc.
and should be sent to your Second District Chairperson, Cafti Walsh.
Please send your checks by January 15, 2017.

Below is a slip to fill out and send with your contributions.

.....
The members of _____ Garden Club
wish to contribute to World Gardening.

Enclosed is a check for \$_____ made payable to :
Federated Garden Clubs of New York State, Inc.

Please send your contributions to :
